BASIC TERMINOLOGY

Member: Refers to an Assembly Member or Senator

Committee: Place where legislation is heard prior to the floor.

Author: Legislator who is carrying the bill.

Sponsor: Group or organization (like FACCC) who has brought idea for legislation to a legislator. In Washington, DC the sponsor is the Congressional Representative or Senator carrying the measure.

Placing a Call: After committee or floor deliberation, the committee or floor may decide to hold open the vote until all Members have a chance to decide.

Lifting a Call: When a committee or floor decides to take an additional roll call vote on a bill in which a call has been placed. If the bill does not have enough votes for passage once a call has been lifted, the committee or floor can decide to place another call, kill the bill, or reconsider it for a later date.

File: Booklet showing the location of bills in the legislative process.

Third Reading: Bill heard on the Assembly or Senate floor.

WARF: Without reference to file, meaning that the bill is being voted or amended regardless of where it appears in the File.

POLITICAL GOLDEN RULES:

- 1) If you're not political, politics will find you. Get involved.
- 2) The California Legislature represents more people than the entire country of Canada. Treat your legislators with respect (although not with awe – they are human).
- 3) It's not who you know, it's who knows you. It's relatively meaningless if you can recognize your legislators; it's a big deal if they know you.
