**Subject:** Approval of AP Physics 1 for IGETC

Tracy,

As I mentioned in our conversation this morning, AP Physics B is no longer offered. It has been replaced by 2 different year-long classes: AP Physics 1 and AP Physics 2.

Throughout California, there are students currently taking AP Physics 1 that should be able to use it to satisfy area 5A. However, the colleges have not yet been told how IGETC will treat these new AP courses.

AP Physics 1 is not yet listed at [http://icas-ca.org/Websites/icasca/images/IGETC\\_Standards\\_version\\_1.5\\_Final.pdf](http://icas-ca.org/Websites/icasca/images/IGETC_Standards_version_1.5_Final.pdf)

What is the status of approving AP Physics 1 for use with IGETC? What about the other new AP courses?

I look forward to your reply. Thank you.
